

Stoner® 93234 CUT Non-Chlorinated Mold Cleaner

Product Description

Stoner® 93234 CUT Non-Chlorinated Mold Cleaner is a powerful, fast acting, non-CFC, precision mold cleaner and degreaser that removes grease, oils, waxes, inks, tars and silicone oils from tools, equipment, molds, and metal parts.

CUT dissolves and flushes away most release agents from metal molds. Always test before using on plastics or solvent sensitive materials. Cleans and prepares molds prior to application of rust preventives.

CUT as developed as an alternative to chlorinated solvents for precision cleaning of molds. Contains no chlorinated solvents such as 1,1,1 trichloroethane, trichloroethylene, or methylene chloride. Contains no Class I (CFC) or Class II (HCFC) ozone depleting substances.

CUT contains powerful cleaning agents to remove grease, oil, carbon deposits, dirt, and wax, and silicones from molds. Quick evaporating. Dries fast and leaves no residue.

CUT won't harm metals and other solvent resistant materials. Always test before using. Removes finger marks and displaces moisture from molds. For high temperature use or applications requiring a non-flammable cleaner, try **Stoner® A497 Non-Flammable Cleaner For Molds**.

CUT has many useful applications in the molding, and general fabrication industries. Industrial uses include cleaning molds, tools, machinery, metals, equipment, and more.

Uses

Stoner® 93234 CUT Non-Chlorinated Mold Cleaner is a powerful, fast acting, non-CFC, precision mold cleaner and degreaser that removes:

- Grease
- Oils
- Tars
- Waxes
- Silicone Oils
- Inks

For use in manufacturing process only. Not for use as a general cleaner.

Direction for Use

Recommended Procedure

Hold the can upright when spraying. Do not turn the can upside down or sideways when spraying or only the propellant will vent. If enough propellant is vented, can pressure could decrease to a point where the can will not spray. Shake the can well before using. Hold can 8 to 10 inches from mold surface. Direct sprayhead at mold surface and depress spray button. Difficult residue may require a second application.

Storage and Handling

Do not puncture or incinerate container. Do not expose container to heat or store at temperatures above 120 °F. This product is classified as nonflammable by ASTM testing method D3065-01. However, contents of this container can ignite under certain circumstances. Keep container away from and do not use near sparks, open flame, heated surfaces, or other ignition sources.

Packaging

93234 CUT Non-Chlorinated Mold Cleaner is available in:

- 12 can case of 12 oz cans Part # 93234
- 5-gallon pails Part # 93237
- 55-gallon drum Part # 93238
