

Stoner

Stoner® A612

Thin Film Rust Preventive

Product Description

Stoner® A612 Thin Film Rust Preventive provides short term protection against moisture and oxidation. It prevents rust and corrosion from ruining exposed steel and stored metals overnight and on weekends. It allows you to ship or store parts, molds, tooling, or machinery without damage from rust, corrosion, or oxidation.

A677 leaves a thin film on exposed metal to seal out dampness and prevent rust and corrosion. Ideal for plastic and rubber molds. In many applications, A612 works off during start-up and requires no cleaning.

A612 Thin Film Rust Preventive ADVANTAGES:

- Ideal for overnight and weekend rust protection of molds and tooling
- Protects steel and other metals.
- Contains no silicone.
- Contains no Class I (CFC) or Class II (HCFC) Ozone Depleting Substances.
- Contains no chlorinated solvents such as methylene chloride or 1,1,1 trichloroethane.

Uses

Stoner® A612 Thin Film Rust Preventive provides short-term protection against moisture and oxidation. It prevents rust and corrosion from ruining exposed steel and stored metals overnight and on weekends.

Direction for Use

Recommended Procedure

Shake well before using. Hold can 10 to 12 inches from surface to be sprayed. Apply a uniform coating for best results.

Storage and Handling

Do not puncture or incinerate container. Do not expose container to heat or store at temperatures above 120 °F. Keep container away from and do not use near sparks, open flame, heated surfaces, or other ignition sources.

Packaging

Stoner® A612 Thin Film Rust Preventive is available in:

- 12-can case of 12 oz cans Part # A612
