

DETEX PLUS

Acid descaling liquid with high concentration, non fumigant, for heat exchangers in copper and steel systems, efficient for the removal of the toughest scale.

DESCALING

ADVANTAGES AND BENEFITS

- Acid product with high concentration
- Colour change
- No interaction with ferrous metals
- Removal of hard scale
- Restores the optimal heat exchange
- Reduces energy consumption
- Savings in electricity bills
- Reduced descaling time

TECHNICAL FEATURES

COLOUR CHANGE	Active/exhausted	Red-Yellow
ODOUR		Characteristic
pH		<1
DOSAGE		10-15%
SPECIFIC WEIGHT		1,07 kg/L

5 kg - CODE 300501E04

PACK. 3 PCS

10 kg - CODE. 300501005

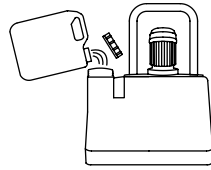

PACK. 1 PC

20 kg - CODE 300501006

PACK. 1 PC

DETEX FE

Concentrated strong descaling liquid for heat exchangers and copper or steel cooling circuits. It does not damage ferrous materials.

- No damage to ferrous materials.
- Colour change
- Suitable for removal of heavy scale
- Fast acting

COLOUR CHANGE active/exhausted	Red-Yellow
ODOUR	Pungent
pH	<1
DOSAGE	10-15%
SPECIFIC WEIGHT	1,05 Kg/L

5 kg - CODE 300501E01

PACK. 3 PCS

10 kg - CODE 300501002

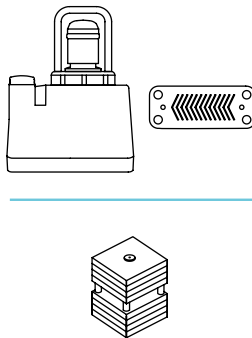

PACK. 1 PC

20 kg - CODE 300501003

PACK. 1 PC

DETEX PLURIMETAL

Non-fumigant acid descaling liquid with special corrosion inhibitors for steel, stainless steel, copper, cast iron, aluminum, brass, tin, light alloys, zinc-plated surfaces.

- Non corrosive
- Non fumigant
- No interaction with zinc
- Suitable for all metals

COLOUR CHANGE active/exhausted	Red-Yellow
ODOUR	Characteristic
pH	<1
DOSAGE	10-15%
SPECIFIC WEIGHT	1,08 Kg/L

10 kg - CODE 300501011

PACK. 1 PC

20 kg - CODE 300501012

PACK. 1 PC

MANTEX POWDER MULTI

Descaling powder with inhibitor for stainless steel, brass and tin, non fumigant and non corrosive.

- Non corrosive
- Acid product with high concentration
- Non fumigant
- Does not damage ferrous materials

COLOUR CHANGE active/exhausted	Red-Yellow
ODOUR	Odorless
pH	2
DOSAGE	10-15%
SPECIFIC WEIGHT	1,6 Kg/L

1 kg - CODE 3 00501E07

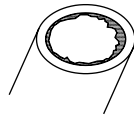

PACK. 6 PCS

10 kg - CODE 300501008

PACK. 1 PC

MANTEX POWDER ZN

Descaling powder with inhibitor for steel, stainless steel, copper, cast iron, aluminum, brass, tin, light alloys and zinc-plated surfaces.

- Acid-based product with high concentration
- Eliminates limescale and rust
- No interaction with zinc
- Easy to transport, to store and dilute

COLOUR CHANGE active/exhausted	Red-Yellow
ODOUR	Odorless
pH	2
DOSAGE	10-15%
SPECIFIC WEIGHT	1,6 Kg/L

1 kg - CODE 300501E09

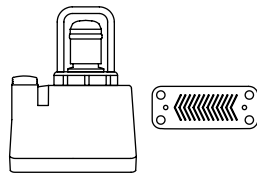

PACK. 6 PCS

10 kg - CODE 300501010

PACK. 1 PC

NEUTRAL LIQUID

Liquid product designed for the rapid neutralization of acid-based chemical descalers.

- Neutralizing alkaline solution
- Quick and safe neutralization
- Eliminates acid residues
- Non-caustic

COLOR	Colorless
ODOUR	Odorless
pH	11
DOSAGE	2-3%
SPECIFIC WEIGHT	1,1 Kg/L

10 kg - CODE 300502001

PACK. 1 PC

NEUTRAL POWDER

Concentrated product in powder designed for rapid neutralization of acid-based chemical descalers.

- Neutralizing alkaline solution
- Quick and safe neutralization
- Eliminates acid residues
- Concentrated powder

COLOUR	Colorless
ODOUR	Odorless
pH	11
DOSAGE	3-5%
SPECIFIC WEIGHT	1,2 Kg/L

1 KG - CODE 300502E02

PACK. 6 PCS

10 KG - CODE 300502003

PACK. 1 PC
