A538 All Purpose Cleaner ADVANTAGES:

- Powerful, concentrated, water-based all purpose cleaner.
- Non-Flammable
- You don't have to send your out tool to be sand blasted.
- You can clean the tool while it is on the spider.
- Quickly cleans even the dirtiest tool.

Uses

Stoner® A538 All Purpose Cleaner is powerful, high pH cleaner used to remove:

- Mold Release
- Colorants
- Resin build-up
- Waxes
- Metal
- Rubber

Direction for Use

Recommended Procedure

This powerful concentrate must be diluted with water before using. In concentrate form, or if allowed to dry on surface, this high pH cleaner can etch glass, aluminum, and other surfaces. As a result, this material should not be used in direct sunlight or on warm surfaces and should be rinsed clean or pressure washed within two minutes after completion.

To remove mold release, resin, and color build-up from tooling test a dilution of 1 part All Purpose Cleaner with 5 parts water and adjust the dilution for desired cleaning performance and economy.

Use a trigger spray bottle to wet the cool molding tool. Keep the tool wet for 5 to 10 minutes. Wearing nitrile gloves and safety glasses scrub the tool with a green scrub pad. Repeat this process as needed. When cleaning process is complete use a wet water soaked cotton cloth to remove any remaining cleaner and build up. Heat the tool to evaporate the water and to Pre-heat the tool prior to applying Stoner mold release. Then follow application instructions to properly cure the mold release.

Storage and Handling

Keep container tightly closed between uses.
KEEP FROM FREEZING.

Packaging

Stoner® A538 All Purpose Cleaners is available in:

- 5-gallon pails Part # A538PL
- 55-gallon drum Part # A538DR
